

1. TEST REST en el proyecto “HelloSpringBoot”

2. Proyecto “SpringBootDemo” -Type “Get”

The screenshot displays a web browser window with the address bar showing the file path `E:/Proyecto_SpringBootDemo/test_rest_GET.html`. The page content is titled "AJAX GET" and includes a sub-header "Create Dynamic HTML UL LIST". Below this, there is a list of seven items, each labeled "1 --- TODO Item #1" through "7 --- TODO Item #7". A button labeled "Get External Content" is positioned below the list.

The browser's developer tools are open, showing the Console tab. The console displays a message from `test_rest_GET.html:41` indicating an `Array(7)` of objects. Each object contains the following properties:

- `id`: 1 through 7
- `whenCreated`: "2021-07-08"
- `whenLastUpdated`: "2021-07-08"
- `des...`: (truncated description)

The array also shows `length: 7` and `__proto__: Array(0)`.

At the bottom of the browser window, a "What's New" panel highlights updates from the Chrome 91 update, including "Web Vitals information pop up" and "Visualize CSS scroll-snap".

-Type "POST"

The screenshot shows a web browser window with the address bar displaying `File | E:/Proyecto_SpringBootDemo/test_rest_POST.html`. The main content area has the heading **AJAX POST** and the text **Create Dynamic HTML UL LIST**. Below this text is a button labeled **Get External Content**. On the left side of the browser, a vertical taskbar is visible with various application icons and system status indicators, including the time **8:45 AM Thursday 7/8/2021** and the text **ESP**.

Overlaid on the right side of the browser window is a dark-themed panel. The top section of this panel contains tabs for **Elements**, **Console**, **Sources**, **Network**, and **Performance**. The **Console** tab is currently selected, showing a filter input and a "No Issues" status. Below this, a "What's New" section displays "Highlights from the Chrome 91 update" with two items:

- Web Vitals information pop up**: Hover on a Web Vitals marker in the Performance panel to understand what's the indicator about.
- Visualize CSS scroll-snap**: Toggle the "scroll-snap" badge in the Elements panel to inspect the CSS scroll-snap alignment.

A blue geometric pattern is visible on the right edge of the "What's New" section.

-Type "Get": Se ha agregado los datos nuevos

The screenshot shows a web browser window with the address bar displaying `File | E:/Proyecto_SpringBootDemo/test_rest_GET.html`. The page content is titled "AJAX GET" and "Create Dynamic HTML UL LIST". It displays two identical lists of "TODO Item" entries, numbered 1 through 7 and 1 through 8 respectively. A button labeled "Get External Content" is visible below the lists. The browser's developer tools are open, showing the Console tab. The console log displays two JSON arrays: an array of 7 items and an array of 8 items, both containing objects with `id`, `whenCreated`, and `whenLastUpdated` properties. The date for all items is "2021-07-08". The bottom of the developer tools shows a "What's New" section with updates from Chrome 91.

AJAX GET

Create Dynamic HTML UL LIST

- 1 --- TODO Item #1
- 2 --- TODO Item #2
- 3 --- TODO Item #3
- 4 --- TODO Item #4
- 5 --- TODO Item #5
- 6 --- TODO Item #6
- 7 --- TODO Item #7
